

PAWLOS GELGELO

SOFTWARE ENGINEER

APPLYING FOR :

CAREER OBJECTIVE

I am a software engineer who enjoys building practical and useful applications that solve real problems. My goal is to join a supportive and innovative team where I can use my skills in coding and problem-solving, learn new technologies, and keep improving while contributing to meaningful projects.

EDUCATION

Bachelor Of Degree

In Software Engineering

Wolkite University Ethiopia

2026 Graduate

INTERNSHIP

Wolkite University ICT

Wolkite, Ethiopia

2025

Developed a web-based Financial File Management System for WKU during my internship using React, Java Spring Boot, and PostgreSQL. The system helps manage and organize financial documents with features like search, role-based access, and QR code support. Gained hands-on experience in full-stack development and working on real-world enterprise applications.

ACADEMIC PROJECTS

Library Management System

Console based applications using C++ language

Clearance System

UI based desktop Application Using Java language javafx

Bus Ticketing System

Mobile App using java with android studio and firebase database

HOBBIES & INTERESTS

- Music
- Gaming
- Vibe coding
- Thinking a Logic
